

Attention: Sheep & Meat Goat Seedstock Producers

National Sheep Improvement Program (NSIP) Workshops

May 2-9, 2018 in CT, MA, ME, NH, RI, VT

Getting Your Genetics Right: Converting Performance Records into Relevant Decision-Making Tools

Workshop Topics

- Defining and ranking of traits
- How genetic information, estimated breeding values (EBV), can assist in improving performance traits
- Selection for parasite resistance in pasture raised sheep and goats
- Development of breeding objectives and approaches to selection of breeding animals
- Fecal egg count and live ultrasound demo
- What is an EBV worth?
- Enrolling and using the NSIP System
- Breeding soundness exams

Speakers:

Russell "Rusty" Burgett, NSIP Program Director
Dr. Anne Zajac, Parasitologist, Virginia Tech
Dr. Katherine Petersson, Univ. of Rhode Island
Melanie Barkley, Penn State Ext & NSIP member
 Local small ruminant veterinarian at each workshop

- **May 2nd – 9:30-4:30 - Kingston, RI. Univ. of Rhode Island Independence Square II**, 1 Keaney Rd, RM 195. Contact: Holly Burdett, urisheepandgoat@etal.uri.edu, (401) 874-2249.
